

“Between every two pines is a doorway to a new world.” - John Muir

The Gifted Tree welcomes you to the virtual world of finding your tree planting location. As you know, someone has planted a gift tree in honor of you or someone you love. Your tree has been or will be planted in the Pike San Isabel National Forest in Colorado.

The Pike San Isabel National Forest is located in central Colorado and contains 19 of the state's 53 fourteeners, peaks over 14,000 feet (4,267 m) high, including Mount Elbert, the highest point in Colorado. It has a total area of 1,120,233 acres (1,750.36 sq mi) spread out over parts of eleven counties in central Colorado.

The forest is named after Zebulon Montgomery Pike (January 5, 1779 – April 27, 1813), who was an American brigadier general and explorer for whom Pikes Peak in Colorado was renamed (from El Capitan).

You can view the general area of your planting by clicking on the following link:

<https://binged.it/2lCjIBm>

Once connected to the map, feel free to zoom in and out to get a feel of the general planting area as well as its location in the United States and the world.

Please understand that this is the general area of your tree planting as the reforestation projects conducted by The Gifted Tree take place in a number of regions of the National Forest. Your tree is planted among thousands of other gift trees and there is no plaque designating your gift tree. Our planting partners select and plant trees native to the specific area and the species type will vary depending on what is best for that location.
