

***“Between every two pines is a doorway to a new world.” - John Muir***

The Gifted Tree welcomes you to the virtual world of finding your tree planting location. As you know, someone has planted a gift tree in honor of you or someone you love. Your tree has been or will be planted in Nez-Perce Clearwater National Forest, Idaho, along the valley of the Salmon River. Nez Perce-Clearwater National Forest comprises 4 million acres of beautiful and diverse land located in north-central Idaho. This vast area is best known for its wild character. Nearly half of the forest is designated wilderness.

The planting project focuses on watershed restoration and the planting of fire-resistant tree species (Ponderosa pine, Douglas fir, and Western larch). In addition, more shade-tolerant species adapted to moisture areas (Engelmann spruce and Western white pine) will be planted on moister sites. Your tree planting will help with the reforestation of the tree stands lost in fires and to reestablish forest cover to improve watershed quality and promote biodiversity for endangered, threatened, and sensitive plant and wildlife habitat - a win for the ecological quality of the forest and benefit the overall environment in the area.

You can view the general area of your planting by clicking on the following link:

<https://binged.it/3b4AmZw>

Once connected to the map, feel free to zoom in and out to get a feel of the general planting area, its location in Idaho, the United States, and the world. The link is best viewed using a personal computer.

Please understand that this is the general area of your tree planting as our reforestation projects take place in a number of regions of the forest. Your tree is planted among thousands of other gift trees and there is no plaque designating your gift tree. It is not possible to visit the tree.

Enjoy your gifted tree and know that it is making a monumental difference for the earth and opening a new doorway to the world for future generations.
