

“Between every two pines is a doorway to a new world.” - John Muir

The Gifted Tree welcomes you to the virtual world of finding your tree planting location. As you know, someone has planted a gift tree in honor of you or someone you love. Your tree has been or will be planted in the Nombre de Dios region of northern Honduras. Honduras is rich in biodiversity, and is home to macaws, jaguars, and iguanas, with diverse plant life, colorful insects, and reptiles. National parks and protected areas help preserve the country's unique biodiversity.

Despite their crucial social and environmental roles, Honduran forests face severe threats from fragmentation and deforestation. Activities like slash-and-burn farming, cattle ranching, industrial agriculture, and conversion to monoculture plantations, such as oil palms, drive this trend. The resulting deforestation not only harms the environment but also affects rural communities by reducing access to essential ecosystem services and increasing erosion and landslides on steep slopes.

With about 45% of its natural forests lost since 1990, this project aims to address Honduras' severe deforestation issues. Overuse of resources, population pressure, and agricultural expansion have led to soil degradation, water shortages, and increased flooding. This project will cover 10,000 acres in the Nombre de Dios region, improving ecosystems and supporting local farmers with enhanced income opportunities.

You can view the general area of your planting by clicking on the following link: <https://bit.ly/4nKhFK1>.

Once connected to the map, feel free to zoom in and out to get a feel of the general planting area as well as its location in Honduras, Central America and the world. Please understand that this is the general area of your tree planting as the reforestation project conducted by The Gifted Tree takes place in a large area. Your tree is planted among thousands of other gift trees and there is no plaque designating your gift tree and it is not possible to visit the tree.

Enjoy your gifted tree and know that it is making a monumental difference for the earth and opening a new doorway to the world for future generations. If you have any questions, please view our contact information at: www.thegiftedtree.com/contact-us/.
