

“Between every two pines is a doorway to a new world.” - John Muir

The Gifted Tree welcomes you to the virtual world of finding your tree planting location. As you know, someone has planted a gift tree in honor of you or someone you love. Your tree has been or will be planted in the area around Lubbeek, Belgium. Lubbeek is a municipality located in the central part of the country in the Belgian province of Flemish Brabant. During the previous centuries, these once heavily forested areas of Belgium have been heavily exploited to meet the needs of agriculture and energy thereby depleting these beautiful areas of their trees.

Luckily, the Belgium government has introduced legislation and sustainable forest management practices over the years which have allowed forests to make a comeback. Our planting project of spruce, Douglas fir, and beech will further allow diversification of the area and introduce species adapted to changing climate conditions to ensure the sustainability of the forest habitat in favor of increased biodiversity.

You can view the general area of your planting by clicking on the following link:

Once connected to the map, feel free to zoom in and out to get a feel of the general planting area as well as its location in the Belgium, Europe, and the world. Please understand that this is the general area of your tree planting. Your tree is planted among thousands of gift trees and there is no plaque designating your gift tree, and it is not possible to visit.

Enjoy your gifted tree and know that it is making a monumental difference for the earth and opening a new doorway to the world for future generations.
