

“Between every two pines is a doorway to a new world.” - John Muir

The Gifted Tree welcomes you to the virtual world of finding your tree planting location. As you know, someone has planted a gift tree in honor of you or someone you love. Your tree has been or will be planted in the Custer-Gallatin National Forest, Montana. Encompassing more than three million acres, Custer-Gallatin is known as one of the most ecologically diverse landscapes in the region.

As Gateway to Yellowstone National Park, the National Forest features rugged mountains, including the tallest peak in Montana (Granite Peak), and remote buttes and bluffs. Part of the forest is named after Albert Gallatin, U.S. Secretary of the Treasury and scholar of Native American languages and cultures. Within the forest are Native American burial grounds, pictographs and petroglyphs.

While the lower elevations are often covered in grasses, as well as large stands of ponderosa pine, higher altitudes, with more abundant rainfall, support Douglas fir along with several species of spruce, cottonwood and aspen. The habitat supports over 300 wildlife species, including the grizzly and black bear, elk, mule deer, bison, moose, bighorn sheep, cougar, wolf, bald eagle and peregrine falcon.

You can view the general area of your planting by clicking on the following link:

<https://binged.it/2ZiRakp>

Once connected to the map, feel free to zoom in and out to get a feel of the general planting area as well as its location in the United States and the world.

Please understand that this is the general area of your tree planting. Your tree is planted among thousands of other gift trees and there is no plaque designating your gift tree.

To learn a little more about the planting project for your gift tree, click on the following link:
